Discover more about READ at [www.aarhus.dk/read](http://www.aarhus.dk/read) where you can watch the short film 'Reading Together' and find written material in several languages.

**READ**  
– READING TOGETHER  
0-3 YEARS OLD

## Dear parent

Reading together is enjoyable. The book creates shared attention and intimacy between you and your child. At the same time, you strengthen your child's language skills and familiarity with books.

With this bag, we want to give you inspiration for how you can read together with your child.

The bag contains one or more books and a folder with instructions.

The material in the folder is developed for children in several age groups. Therefore, as a parent you will find that one thing may be more relevant for you and your child than something else.

### The folder contains:

- A pamphlet about why it is important that you read with your child and how you can support the development of your child's language skills
- The instructions, "How to read with your child in the nursery" with specific suggestions about how you can read together with your child
- A bookmark

When you are finished using the bag and the books, they must be returned. You may keep the folder with the pamphlet, etc. Keeping the instructions on the fridge is a good idea.

You can always borrow more books at the library.

READ is also available in a version that addresses children in kindergarten and in school. You can read more about 'READ – Reading Together' at [www.aarhus.dk/read](http://www.aarhus.dk/read). This is where you can also find the film 'READ – Reading Together' as well as a pamphlet and instructions translated into a number of languages.

Have fun reading!
